Important note

We want to make sure that you have all the information you need to make informed decisions about your shipping. Please note:

- Shipping prices may fluctuate due to factors such as fuel surcharges and variable price components from forwarders.
- While we provide estimated lead times, please be aware that these are not guaranteed and may vary based on factors such as destination within a country or seasonal effects.
- If you choose our Express shipping option, you may have the option to pay duties as the sender. Please note that import taxes and duties are not included in the shipping prices, and may be charged by local authorities based on specific factors in each individual country.
- The rate of an Express shipment can be affected by the amount of space that it occupies on an aircraft, rather than the actual weight. This is the volumetric (or dimensional) weight. It kicks in as soon as the volumetric weight exceeds the actual weight.

We strive to provide you with the highest level of service possible. However, please note that delivery is subject to the policies and procedures of our courier partners. As a result, some countries may have special requirements or be excluded from our service, fuel surcharge might occur, other surcharges and, if applicable, extra charge for delivery to remote areas (Remote Area Service).

SERVICES
